Together, A3i and TruLink are designed to stream phone calls, music and more, directly from your iPhone to your hearing aids. Now available in two styles to fit individuals with mild to severe hearing loss.

Invisible

AMP

- Completely invisible in most ears
- Designed especially for first-time hearing aid users
- Easy to remove for better ear health
- Ready to wear in one visit
- Acts like a hearing amplifier

If you want to hear better but aren't sure you're ready for a hearing aid, it's time to AMP®.

AMP is a new kind of hearing aid — one so tiny it fits invisibly in your ear canal where no one can see it.* It's comfortable, works well with many levels of hearing loss and is designed specifically for first-time hearing aid users.

* Individual results may vary. Invisibility may vary based on your ear's anatomy.

Invisible

- Custom-made for you
- For mild to moderately severe hearing loss
- Completely invisible in most ears

INVISIBEL SYNERGY

Invisibel Synergy are our most-advanced invisible hearing aids on the market. Custom fit to your exact needs and unique ear canal shape, they rest comfortably deep in your ear, so only you know they're there. And though tiny, Invisibel Synergy come loaded with all of our leading technology. They're the first and most popular custom-fit Invisible-in-the-Canal (IIC) hearing aids ever made.

Receiver-in-Canal

Wireless Accessories

SurfLink Mobile 2

SurfLink Mobile 2 is a hands-free cell phone transmitter, assistive listening device, media streamer, and hearing aid remote all rolled into one. When paired with wireless hearing aids, it's everything you'll need to talk on the phone, enjoy music, and so much more. You'll get clear and consistent wireless streaming anytime, anywhere.

- Enables hands-free cell phone conversations by turning our wireless hearing aids into the phone microphone and receiver:
 - **Microphone** — Your hearing aids pick up your voice and send it to the person you're talking to
 - **Receiver** — SurfLink Mobile 2 streams the voice on the other end directly to your hearing aids
- Directional microphone enhances one-on-one conversations in noisy environments.
- Omnidirectional capability is ideal for listening in meetings or group settings.
- Can be used as a convenient and powerful assistive listening device.
- Wirelessly streams sound from any Bluetooth®-enabled music device.

SurfLink Media 2

Our wireless hearing aids work with our SurfLink® Media 2 streamer, the first set-and-forget wireless transmitter. With SurfLink Media 2, there's no manual pairing involved. Once you plug it into your TV or stereo, you're done!

- It automatically streams sound directly to your hearing aids when you're in range.

- You can transition from one device to another simply by moving from room to room.
- It lets others in the room listen to the TV or stereo at the volume they prefer.
- Enables multiple people wearing wireless hearing aids to connect to a single device.

Apple Compatibility

Made for iPhone Hearing Aids and the TruLink app have been tested and are compatible with iOS 10 and all versions of iOS 9. Apple's Operating System (iOS) runs your iPhone and is responsible for managing the connectivity between the iPhone and Made for iPhone Hearing Aids.

iOS UPDATE NOTE: When updating the version of iOS on your iPhone, the hearing aids may lose connection, requiring you to unpair and re-pair the hearing aids with your iPhone.

The TruLink app is a supplement to your Made for iPhone Hearing Aids and offers a variety of enhanced adjustment capabilities and exciting features. The TruLink app relies on iOS connecting to the hearing aid in order to communicate.

Made for iPhone Hearing Aids and the TruLink app are compatible with the following Apple devices: iPhone 7, iPhone 7 Plus, iPhone SE, iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s (A3i only), iPad Pro, iPad Air 2, iPad Air, iPad (4th generation), iPad mini 4, iPad mini 3, iPad mini with Retina display, iPad mini, iPod touch (5th generation) and Apple Watch. Use of Apple Watch requires iPhone 5 or later.

For best performance, we recommend using TruLink 3.0.2.

Apple, the Apple logo, iPhone, iPad, iPod touch and Apple Watch are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. "Made for iPod," "Made for iPhone" and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, iPhone, iPad or Apple Watch may affect wireless performance.

Android Compatibility

Made for iPhone Hearing Aids and the TruLink app are compatible with the following Android products: Google Nexus™ 6P, Google Nexus™ 5X, Samsung Galaxy S® 7 Edge, Samsung Galaxy S® 7, Samsung Galaxy S® 6 Edge Plus, Samsung Galaxy S® 6 Edge, Samsung Galaxy S® 6, Samsung Galaxy S® 5, Samsung

Galaxy S® 4, Samsung Galaxy Note® 7, Samsung Galaxy Note® 5, Samsung Galaxy Note® 4, Samsung Galaxy Note® 3, HTC One® M8 and HTC One® M7.

It is recommended that Android users use operating system 6.0 for Nexus 6P and Nexus 5X phones. It is recommended that Android users use operating system 6.0 for Galaxy Note 7, 5.1.1 for Galaxy S6 Edge Plus and Galaxy Note 5 phones. It is recommended that Android users use operating system 4.4.4 for Galaxy S5 and S4 phones and operating system 5.0 for Galaxy S6, HTC One M8 and M7, and Note 4 and Note 3.

Android and Google Play are trademarks of Google Inc. Galaxy S, Galaxy Note and Samsung Galaxy Apps are registered trademarks of Samsung Electronics Co., Ltd. HTC One is a trademark of HTC Corporation.

Hearing Protection

HIGH-DEFINITION SOUND ENHANCEMENT & AUTOMATIC NOISE SUPPRESSION

Whether you're in the woods, at the range or on the factory floor, hearing clearly is key to your success and safety. Yet the competing need to protect your hearing from the damaging sound of gun blasts, power tools and industrial machines creates a unique noise management challenge. SoundGear solves that challenge, and Ortiz Hearing Center, Inc. is excited to introduce this new advancement in hearing protection.

SoundGear represents the latest advancements in electronic hearing protection. This unique family of 100 percent digital products enhances environmental awareness while also protecting your hearing from loud noises like gun blasts and engines.

Made by Starkey Hearing Technologies — America's premier provider of hearing solutions — SoundGear instruments feature advanced digital technology capable of enhancing sound eight times over traditional hearing protection products. At the same time, it uses seamless sound activated compression to trigger instant and automatic suppression of loud impulse and continuous noises.

HUNTERS & SHOOTERS

It's the ideal solution to protect your hearing from muzzle blasts, while helping you hear clearly to optimize communication, success and safety in the woods or on the range.

INDUSTRIAL WORKERS

SoundGear protects your hearing from the noise of power tools, engines and other industrial machines, while optimizing hearing to enable better communication, performance and safety on-site, in the shop or on the factory floor.

MILITARY PERSONNEL & POLICE OFFICERS

Law enforcement officials, tactical teams and more use SoundGear to protect their ears from muzzle blasts and explosives, while enabling digital sound enhancement to optimize awareness at all times in a simulator, on the range or live fire environment.

SOUNDGEAR FEATURES

- Dynamic digital protection for your ears
- High-definition sound reproduction
- Up to eight times sound enhancement over traditional hearing protection products
- Noise Reduction Rating (NRR) between 24dB and 26dB depending on model
- Seamless sound-activated compression automatically suppresses noises
 - over 95dB in our recreational model
 - over 80dB in our industrial model
- All-day, easy-to-wear comfort

SOUNDGEAR IS NOW AVAILABLE IN THREE DIFFERENT STYLES.

INSTANT FIT IN-THE-CANAL

SoundGear In-the-Canal is the smallest and lightest dynamic digital hearing protection product on the market. It's ideal for the hunter or shooter looking for an edge — or industrial workers looking for all-day comfort. Ready to wear right out of the box, it rests discreetly inside your ear to deliver natural wind reduction and superior sound quality.

BEHIND-THE-EAR

SoundGear Behind-the-Ear (BTE) is ideal for the budget conscious consumer who still wants the benefits of digital hearing protection. This versatile style provides wearers with hearing protection and enhancement at a more affordable price. Available in two technology levels, it is a great starter solution for just about anyone.

CUSTOM

SoundGear Custom products are for those who refuse to compromise when it comes to performance and personalization. Each pair is digitally customized to the wearer's ears, and features the most advanced electronic hearing protection and enhancement technology on the market.
