

Eyezen™

TAKE CARE OF YOUR EYES

Ordinary glasses help you see your world. Eyezen glasses enhance the way you live in it. Our lenses are a technological advancement designed for how you view all your modern digital devices. The result? Lenses that don't just fit you; they fit how you interact with the world.

ENHANCED LENS

SET YOUR SIGHTS ON EVERYTHING

Since the way we look at every digital device is different, Eyezen lenses are enhanced to help you see comfortably regardless of device sizes and the distances you hold them. This helps you continue to see clearly and reduce eye strain.

FOR ANYONE WITH A SCREENLIFE

Everyone deserves the most comfortable vision possible. That's why Eyezen glasses are available to everyone — whether you have a prescription or not — to help reduce eye strain, keep you going and get the most out of your screenlife.

Eyezen glasses are designed to protect your eyes in multiple ways. It's this combination of groundbreaking vision solutions that keep your eyes relaxed and comfortable.

Eyezen glasses also selectively filter up to 20% of harmful blue light rays. These lenses let beneficial blue-turquoise light pass through while deflecting a significant amount of the dangerous blue-violet light. Eyezen lenses are also enhanced to help you see comfortably regardless of device sizes and the distances you hold them. This helps you continue to see clearly and reduce eye strain
