

EYE EXAMS -vs- VISION SCREENINGS

What's the difference?

Vision screenings provide less than 4% of the information generated during a comprehensive eye exam and miss up to 75% of children with vision problems.

American Optometric Association

EYE EXAMS

Specialized equipment and testing, including:

- distance acuity
- eye teaming
- eye movements
- focusing skills

Optometrists, Ophthalmologists can diagnose myopia or other eye conditions.

VISION SCREENINGS

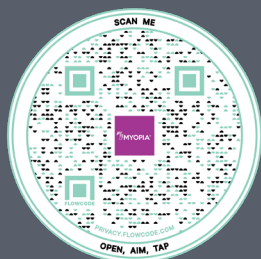

Administrative personnel or volunteers:

- may not be ophthalmic trained
- may not be able to assess screening results

Vision screenings only test distance and visual acuity.
