

**My Vision Therapy Experience**  
at the Pediatric Vision Development Center of Gwinnett

Date: July 22, 2012

Age: 12 yrs.

My daughter had great success w/ vision therapy at P.V.D.C. Her prescription went from +1.50 to +2.50 in just 9 months of therapy. She had a segment of vision therapy in office & at home. Our Ophthalmologist was "wow"ed by the results! 20/20 vision!

Dr. Shadeed is absolutely wonderful! She ~~gets~~<sup>gets</sup> to know each patient and you feel that you (your child) could not be in better hands. Her warm & caring personality builds such confidence for the child & parents.

Our family would highly recommend vision therapy & definitely w/ Dr. Shadeed.
