Covid-19

We have taken enhanced cleaning and safety measures for our patients and our staff. Please follow all posted and/or verbal instructions while visiting our clinic.

WE ARE SEEING PATIENTS BY APPOINTMENT ONLY

Your insurance information and health history must be completed before you arrive for your exam. If you need help or do not have a connection to do online forms, please call us and we will help you fill out the forms. Please arrive 15 mins. before your scheduled appointment time. Only the patient with an appointment is allowed inside the clinic unless a parent is needed for a child or a caretaker is needed for an adult.

1. If you are exhibiting any signs of sickness (significant coughing, difficulty breathing, etc) we will not be able to see you and will need to reschedule your appointment.
2. Please bring a mask with you and wear it into the building. If you do not have one, one can be provided for an additional charge of \$3.00
3. Please stay in your vehicle when you arrive in the parking lot. Call us at 208-384-9194 when you arrive, and a technician will come get you when we are ready. Please have your mask on **before** you exit your vehicle.
4. Upon entering the building, please stay behind the plastic partitions when at the front desk as well as when you check out. We will ask you for verbal confirmation that you do not have any symptoms of respiratory illness and to the best of your knowledge you have not been in contact with any confirmed or presumed positive cases of COVID- 19.
5. Please try to maintain a 6-foot distance between other individuals in the office when possible. We will take your temperature and ask you to wash your hands or use hand sanitizer which is available throughout the clinic. If we find that your temperature is in fever range (over 100), we will not be able to proceed with the appointment.
6. If you would like to look at glasses today, we will assign you to a table after you have been seen by the doctor. Please allow the optician assigned to you to bring you glasses to try on.

Thank you for understanding. If you have questions or concerns, please call us.

An inherent risk of exposure to Covid-19 exists in any public place where people are present. Covid-19 is an extremely contagious disease that can lead to severe illness and death. According to the CDC, senior citizens and patients with underlying medical conditions are especially vulnerable.

By entering the office of Idaho Eyecare Center you voluntarily assume all risks related to exposure to Covid-19.
