

Kennedy Vision Health Center's Professional Contact Lens Examination Fees:

Kennedy Vision Health Center provides exceptional contact lens services. Our recommendations are **individually** tailored to each patient and are based on many factors including your eyeglass prescription, visual needs, eye shape, eye size, eye health, and overall health.

Why is the contact lens examination separate from the comprehensive eye examination fee?

Insurance companies require doctors to separate routine eye examination fees from contact lens fees. Most insurance companies treat contact lenses as **cosmetic and optional**, and therefore do not cover any fees associated with them. Fees are required because the staff and doctors perform additional tests and spend more time with patients who wear contact lenses.

Contact lenses are medical devices that can only be dispensed with a doctor's prescription. They are regarded with the same caution as prescription drugs and must include size, shape, type, replacement schedules, expiration dates and required follow-up visits.

Contact Lens Evaluations (For patients who currently wear contacts):

Contact Lens Evaluation 1 (within 13 months of your last exam and no changes):	\$39.00
Contact Lens Evaluation 2 (within 13 months of last exam and prescription changes):	\$49.00
Contact Lens Evaluation 3 (after 13 months from last exam and/or prescription changes):	\$59.00

Contact Lens Fittings (For patients who are new to contacts or must be completely refit):

Contact lens examinations and fittings have different levels of difficulty; this depends on the type of contact lenses needed, the visual requirement of the patient, and the health of the patient's eyes.

Soft Daily Wear, Planned Replacement, & Extended Wear Spherical Lenses:	\$79.00
Soft Toric Lenses (for astigmatism):	\$109.00
Soft Bifocals & Monovision Lenses:	\$149.00
Rigid Gas Permeable Spherical Lenses:	\$149.00
Rigid Gas Permeable Toric & Bitoric Lenses:	\$169.00
Rigid Gas Permeable Bifocal & Monovision Lenses:	\$199.00
Keratoconus or Scleral Lenses	\$399.00
*Insertion and Removal Training	\$25.00

*If you are a new contact lens wearer, a 30-minute insertion and removal training course, trial contact lenses, and contact lens care kits will be provided for an additional **\$25.00**.*

I have read and understood Kennedy Vision Health Center's Contact Lens Professional Fitting Fees and I agree to pay the following fees **on the day of service**. Kennedy Vision Health Center will not submit your contact lens professional fitting fees to your insurance company.
