

Family-owned Crystal Vision Clinic Moving to a New Location

Crystal Vision Clinic, a small family business, has been providing the Crystal community and surrounding area with comprehensive eye care services for over 60 years. They have outgrown their current site on Douglas Drive and have moved to a new location at 5730 Bottineau Boulevard in Crystal, next to the Crystal Medical Center and the Crystal Airport. The new building has increased space for current services and has the capacity for Crystal Vision Clinic to add additional services for its patients. The new facility uses solar energy and has an air purification filter to treat the air quality throughout the building.

Great vision is fundamental to a healthy quality of life and you can trust your eyes to

the doctors at Crystal Vision Clinic who provide comprehensive eye care services to family members of all ages. Using state of the art equipment, their doctors not only provide comprehensive eye exams, but also manage patients with medical conditions like

- Diabetes
- Glaucoma
- Macular degeneration
- Cataracts
- Dry eyes

They also fit a wide variety of contact lenses, including multi-focal lenses and toric contact lenses for patients who have astigmatism. They value the patient experience, and patients receive personalized attention that is often rare at other clinics.

Have you ever felt overwhelmed when choosing frames? When

purchasing glasses from Crystal Vision Clinic, know that their optical department has a professional team of opticians who collectively have over 80 years of experience, and many of their opticians are board-certified. Our opticians act as personal shoppers, and patients have fun finding that perfect pair of glasses. They have a vast array of frames, styles and unique brands. You will find the perfect frame, style and price at Crystal Vision Clinic. In addition, the team at Crystal Vision uses an Optikam, a digital measurement system, to ensure accuracy of your prescription lenses. The personalized care you'll receive sets Crystal Vision apart.

Check out two typical patient reviews:

I had been going to my local eye place and decided to try this place. I walked away feeling confident about what the doctor told me about my eyes. I loved how thorough they were in the exam. The staff is so welcoming. Totally would refer to family and friends.”
– TS

“My husband and I have been going to Crystal Vision Clinic for years and have always been pleased with the service. Today I had the pleasure of working with Eugene to have my glasses repaired and to order a new pair. The experience was beyond comparison!!!” – GG

State of the art technology and facilities. Experienced opticians. A vast array of frame styles. Personalized attention. Crystal Vision Clinic has everything your family needs for great eye care. Learn more at crystalvisionclinic.com, and call for an appointment today at 763-537-3213.
