Contact Lens Policy

I am interested in a complete contact lens exam today. I understand that the fees are divided into 3 categories:

1. The Annual Comprehensive Exam
This exam must be completed (within the last 5 months) in order to move on to the actual contact lens evaluation. This portion of the exam checks your visual function, eye health, and results in an eyeglass prescription, if needed, and also serves as the starting point for a contact lens prescription. This exam starts at \$185.00 for new patients and \$140.00 for established patients, depending on which additional procedures are required or recommended. This may be covered by your insurance.
2. The Annual Contact Lens Evaluation
This is the portion of the exam where the contact lens prescription is finalized and can only be done following the annual comprehensive exam. This service includes the initial fitting or re-fitting of your lenses, any training that may be required and follow-up visits (including the quarterly progress evaluations). This service starts at \$70 and increases depending on the type of lens that you and the doctor decide works best for you. This is typically not covered by insurance. **This fee cannot be waived.**
3. The Contact Lens Materials
The materials start at \$30. This also depends on the lens type you and the doctor may decide is best for you.

The comprehensive exam and contact lens services are **annual fees**. There are **no refunds** on professional fees (exam and contact lens service). The prescription is valid for **one year**. Please note that the Comprehensive Exam differs from the Annual Contact Lens Evaluation and both must be completed in order to receive contact lenses.

If you have ANY questions, please feel free to ask any of our staff members.

I have read and understand this Contact Lens Policy.
