ACUVUE OASYS® Brand Contact Lenses 1-Day with HydraLuxe™ Technology

Denise M. Whittam,
OD

A Contact Lens That Can Stand Up to Demanding Days

Prescribe a lens designed to provide your patients with great comfort, vision, and handling—no matter what life throws at them

Demanding Days Impact Lens Performance

Nearly 60% of contact lens wearers—and especially those with demanding days—experience a decline in lens performance over one day. Declining performance is associated with a wide variety of activities that require wearers to shift between different environments throughout the day.

Taking Comfort to the Next Level

ACUVUE OASYS® 1-Day with HydraLuxe™ Technology has excellent performance across multiple activities and demanding environments. The lens's tear-like molecules mimic mucins and help to stabilize the tear film. ACUVUE OASYS® 1-Day outperforms a leading competitor on comfort, vision and handling.

Dr. Whittam has an independent practice associated with Cohen's Fashion Optical in New York City. She is a paid consultant for Johnson & Johnson Vision Care, Inc.

ACUVUE® Brand Contact Lenses are indicated for vision correction. As with any contact lens, eye problems, including corneal ulcers, can develop. Some wearers may experience mild irritation, itching or discomfort. Lenses should not be prescribed if patients have any eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. Consult the package insert for complete information. Complete information is also available from Johnson & Johnson Vision Care, Inc. by calling 1-800-843-2020 or by visiting www.acuvueprofessional.com

ACUVUE®, ACUVUE OASYS®, HydraLuxe™ and EYE-INSPIRED™ are trademarks of Johnson & Johnson Vision Care, Inc.
