

Optomap Implied Consent

**IMPORTANT ANNOUNCEMENT FROM YOUR DOCTOR**

Dr. Steven R. Warstadt & Associates is proud to provide our patients with the most highly advanced technology available in retinal screening today! Our ability to view your internal retinal health is now dramatically improved with the Optomap.

Your doctors are concerned about retinal problems such as macular degeneration, glaucoma, retinal holes or detachments and diabetic retinopathy (all of which can lead to partial loss of vision or blindness). Additionally, systemic diseases such as diabetes and high blood pressure can be detected during a retinal exam.

**EARLY DETECTION IS CRUCIAL!!**

Optomap Provides:

- An annual eye wellness scan
- An in depth view of the retinal layers (where disease can start)
- The ability to show you your images today during your exam
- A permanent record for your medical file, which gives your doctor comparisons for tracking and diagnosing potential eye disease.

Optomap:

- Is fast, easy and comfortable
- **Will NOT require dilating drops (in most cases), which results in blurred vision and sensitivity to light.**

Because your insurance is designed to cover only a basic eye examination, it does not cover advanced screening tools such as the Optomap. The doctors at Dr. Steven R. Warstadt & Associates would like for ALL of their patients to have an Optomap exam annually. The additional fee is only \$30.00.
