Friday
8:30 AM - 5:00 PM

"We believe sight is a precious gift that compliments all aspects of life. Our goal is to protect and enhance this gift, further equipping you to pursue the unique plan and purpose for your life."

What Can You Expect During Your Visit?

During your contact lens fitting, we will assess your corneal health, lids and tear chemistry to design the most suitable lens and solution system for you. At scheduled follow up visits, we will monitor the fit of the contact lens, health of the eye and the quality of vision with contact lens wear. Lens material and solution will be modified as required. Your contact lens fitting and assessment will be performed by an Optometrist, a university educated board certified Eye Doctor trained to diagnose, treat and prevent conditions of the eye and who keeps abreast of the latest in contact lens technology. Contact lens assessments are recommended annually. This is not covered by OHIP so a fee will apply.

Professional Fitting by your Eye Doctor \$ _____

Includes: initial fitting, insertion-removal and care training, starter solution kit with case, follow up fitting visits, as well as diagnostic lenses suited to your lens type; one pair for a monthly lens, 10 pair for daily lenses. Contact lenses are a medical device which can increase the risk of some eye conditions. It is important to follow your Doctor of Optometry's advice and to have annual Comprehensive Eye Wellness examinations which include a contact lens assessment. To maintain optimum vision, comfort and long term eye health, it is also important to follow the wearing and replacement schedule as instructed for your contact lenses.

Research has shown that infections or complications from deposit build-up are less likely to occur when contact lenses are discarded more often. Frequent Replacement lenses are discarded daily, every two weeks, or every month as established by the manufacturer's design and research. The lens selected for you depends on our assessment of your eyes and lifestyle requirements.

If you have any questions, please do not hesitate to ask us. Call **905-957-3309** to schedule an appointment.

HEALTHY EYES PLAN

The Healthy Eyes Plan requires a contact lens assessment by your Doctor of Optometry and purchase of contact lenses from our office at fabulously competitive pricing. Your Comprehensive Eye Wellness exam includes a contact lens assessment. OHIP funded exams do not cover a contact lens assessment and renewal of contact lens prescriptions. A contact lens assessment fee will apply to patients that have OHIP funded exams.

Our Healthy Eyes Plan includes:

COURTESY exchange of unopened boxes of disposable lenses within the year (i.e. prescription change).

COURTESY replacement of damaged or ripped disposable lenses (on approval).

COURTESY follow up care from your Doctor of Optometry if there are any problems. We offer worry-free support, any visits required for contact lens problems are covered (these are not covered by OHIP). A minimum \$69 fee applies to patients with contact lens related issues who do not participate in the Healthy Eyes Plan. Refit fees may apply if a change is required in contact lens style.

FREE shipping to you upon request for an annual supply of the most popular contact lens brands (temperature dependant to avoid damage to the lenses.) We also conveniently stock select brands. Ordering through our website is available at merrittyecare.ca for your convenience with the same great benefits.

Satisfaction Guaranteed - We will work with you to find the lenses that best suit your visual and lifestyle needs. We are committed to providing high quality products at exceptional value.

Loyalty savings of 10% off spectacle lenses when purchased the same day as ordering an annual supply of contact lenses based on the manufacturers recommended replacement schedule. *(excludes value & Jr Pkg. Conditions apply)*

OR

We offer 10% off the same day purchase of plano sunglasses with the purchase of an annual supply of contact lenses. *(Only one promotion per purchase.)*

Convenience - Buying local is convenient and supports your neighbours and town. We have all seen quality businesses close or leave town due to big box stores and on-line competition. Buying local allows us to continue to bring you the highest quality eye care.
