

## *About Your Insurance*

There are two types of health insurance that will help pay for your eye care services and products. You may have both types and Family Vision Center accepts most insurance plans in both categories: 1) Vision Plans (such as VSP, EyeMed, and others) and 2) Medical insurance (Blue Cross\Blue Shield, Medicare, and others).

- Vision plans **ONLY** cover routine vision wellness exams, along with eyeglasses or contact lenses. Vision plans DO NOT COVER MEDICAL EYEHEALTH CARE (the diagnosis, management or treatment of eye health problems).
- Medical insurance MUST be used for medical eyehealth care diagnoses, treatment and follow up.
- If you have both types of insurance plans it may be necessary for us to bill some services to one plan and some services to the other. We will follow a procedure called coordination of benefits when appropriate to minimize your out-of-pocket expense.
- If some fees are not paid by your insurance, we will bill you for them, such as deductibles, copays, or non-covered services as allowed by the insurance contract.

Please provide your insurance cards to our staff members so we can make a copy. We need to have your medical insurance card on file if we should need it in the future for billing your insurance.

I have read and accept the policies.
